

IDMA RUSSIA 2022 MOSCOW/RUSSIA POST SHOW REPORT 2022

EXHIBITION PROFILE

Version : 1
Date : 30 November - 2 December 2022
Organisation : Hage Exhibition
Idma International Exhibition

Turkey's export stars gathered in Russia.

Among Turkey's export stars, domestic flour, feed, grain processing machinery and mill producers met with Russian producers, who have a grain harvest of 130 million tonnes, at IDMA RUSSIA. With an export target of \$300 million, 100 brands gathered with nearly 3,000 professionals in the capital Moscow and showcased their latest technologies. IDMA, which organises the world's largest trade fairs in the sector, brought together domestic flour, feed, grain processing machinery and mill producers in Russia, the world's grain storehouse. Held in Moscow, Russia's capital, between 30 November and 2 December 2022, the fair brought together investors looking to establish new facilities, producers seeking to expand the capacity of their existing facilities, and all representatives of the sector, while also hosting the Turkey-Russia Grain, Pulses and Feed Summit.

The eyes of the global grain sector were on the Turkish-Russian Grain, Pulses and Feed Summit. Held concurrently with the IDMA RUSSIA fair, the summit featured prominent figures in the sector such as Prof. Dr. Mustafa Bayram, Chairman of the Board of Directors of TABADER, V. A. Butkovsky, President of the International Academy of Industry, and Igor Sviridenko, President of the Russian Union of Flour and Feed Manufacturers, who assessed the new era's grain, pulses, and feed policies and strategies. IDMA will continue to guide the sector, shape future perspectives, and set new goals, just as it did at IDMA RUSSIA.

EXHIBITED PRODUCT TECHNOLOGIES

GRAIN AND FLOUR MILL TECHNOLOGIES

- Cleaning and Tempering Machines and Equipment
- Grinding Machines and Equipment
- Screening Machines and Equipment

BISCUIT PRODUCTION TECHNOLOGIES

- Dough Mixing and Kneading Machines and Equipment
- Dough Conveying and Shaping Machines and Equipment
- Baking and Cooling Machines and Equipment

RICE AND PULSES PROCESSING TECHNOLOGIES

- Drying and Husking Machines and Equipment
- Cleaning and Sorting Machines and Equipment
- Polishing Machines and Equipment

CORN AND SEMOLINA PRODUCTION TECHNOLOGIES

- Cleaning and Drying Machines and Equipment
- Grinding Machines and Equipment
- Screening Machines and Equipment

FEED PRODUCTION TECHNOLOGIES

- Dosing Units Machines and Equipment
- Cracking and Mixing Machines and Equipment
- Pelletizing and Granule Unit Machines and Equipment

PASTA PRODUCTION TECHNOLOGIES

- Kneading Machines and Equipment
- Shaping and Molding Machines and Equipment
- Cutting and Drying Machines and Equipment

BULGHUR PRODUCTION TECHNOLOGIES

- Cleaning and Pre-Washing Systems
- Husking Machines and Equipment
- Cooking, Cooling and Drying Systems

AND FOR ALL PLANTS

- Classification Systems and Equipment
- Conveying Systems and Equipment
- Bagging, Handling and Packaging Machines and Equipment
- Silo and Storage Systems
- Ventilation Equipment
- Temperature and Humidity Control Systems
- Electrical, Automation & Yield Systems
- Raw Material Procurement Unit Machines and Equipment
- Dust Control Systems and Equipment
- Quality Control Systems
- Analysis Kits and Devices
- Additives
- Spare Parts and Sub-Industry Products
- Raw Material Suppliers
